

Mariana Niell-Swiller, MS, CGC

Board Certified Genetic Counselor

Mariana Niell-Swiller, MS, CGC, is a board certified genetic counselor who has been specializing in cancer genetics and hereditary cancer risk assessment for 10 years.

Ms. Niell-Swiller has a Master of Science in Genetic Counseling degree from Brandeis University, Waltham, MA, and a bachelor's degree in biology from Cornell University, Ithaca, NY. After honing her molecular genetics skills in the laboratory setting as a genetics lab technician, Ms. Niell-Swiller began her clinical career on the East Coast as a genetic counselor in Springfield, MA. Most recently, she served as the Assistant Director of the clinical arm of the Division of Clinical Cancer Genetics at City of Hope in Duarte, CA. She now has the honor of providing hereditary cancer risk assessment to Health Quest patients.

In addition to assisting patients with their hereditary cancer evaluations, Ms. Niell-Swiller has been involved in educating healthcare providers interested in genetics as well providing mentorship to future genetic counselors. She is a member of the National Society of Genetic Counselors, and she is fluent in Spanish.
