APPLICATION RESEARCH INTERNSHIP/FELLOWSHIP 2020

Title: Health Quest Division of Clinical Research Internship/ Fellowship 2020

Description: The Health Quest Division of Clinical Research Internship Program is a well-defined, structured program for college and graduate students to participate in clinical research. The program is a great way for students to test their inclinations toward careers in clinical research, medicine, and public health. Students will assist with clinical research projects assigned by the Project Investigator and/or Coordinator in a variety of ways, including data collection, entry, and analysis, publications; and compiling and submitting essential documents in accordance with institutional guidelines. Students may also attend tumor boards, journal clubs as well as research related conferences and meetings.

Highlights:

- Excellent opportunity for premed students who wish to learn about clinical research
- Training and supervision provided
- Duration: Minimum 12-16 weeks
- Times for Internship: Monday - Friday, 9am - 5pm (20 hour min)
- Times for Fellowship: Monday - Friday, 9am - 5pm (Full Time)
- Maximum Students per Block/Period: 5
- Method of Evaluation: Monthly evaluation to be done by the Project Investigator or Clinical Research Manager.
